## The Rose Sensation of the Season

## The New Dawn

This is the long-awaited for ever-blooming climber. It is a form of Dr. Van Fleet which has always itself been a great favorite, the only cause for regret having been its short blooming season. In the NEW DAWN we have the same rose, with its long pointed pink buds, its large full flowers, on long stems for cutting, and repeated all through the summer. Naturally the supply of anything so new is limited. Order early.

Price \$2.00
